8va 1

My kite is white with a dang - ly tail, Tied with

6 8va

rags so it can sail, And when its tail is all un -

12 8va

twirled, Then it can fly all a - round the world.

18 8va

Now when my kite gets up so high,

23 8va

Swish - ing, swirl - ing in the sky, I'd like to

28 *8va*

climb right up its string On to its back more than

33 *8va*

an - y - thing. Oh, we could

38 *8va*

float to lands a - far, High e - nough to

43 *8va*

reach a star, And when we'd been where we'd nev - er

48 *8va*

been, Then we could fly back home a - gain.
